Cynthia – updating my earlier email regarding attendance at Wednesday's meeting on USOR, I will attend for TPC (formerly called Texas Petrochemicals) at the Dallas location, and Michael Smith will attend representing TPC at the Houston teleconference location.

Regards, Marise

Subject: UPDATE: NEW INFORMATION This will be the call in number for our 1 pm November 30 meeting with the USOR PRP group

Because of numerous requests the EPA has received in the past 2 days, we will be doing the VIDEO conferencing again, as before, from the Bracewell and Guiliani offices in Houston, Texas. We will also be using Bracewell's office in Dallas for our meeting on Nov. 30, at 1 pm Central Time. Therefore, we will have a call in phone line for those who want to conference in. The conference line phone number is: 1-866-299-3188 pin 2146652197. In addition, we will have a video conference in Houston, and we will have a meeting in Dallas for those who want to attend in person.

For those coming to Dallas for the meeting, you can either go directly to the offices of Bracewell and Giuliani (address below) or come to the 7th floor reception area of the EPA, and call either myself (665-7480) or Jan Johnson 665-2733 and we will escort you to the offices of Bracewell and Giuliani, which is in the same building as the Region 6 EPA offices.

Please send me an email informing me of how many people will attend in person, via conference line, and via video conference.

Bracewell & Giuliani 711 Louisiana Street Suite 2300, Pennzoil Place - South Tower Houston, TX 77002-2770 (713) 223-2300

Dallas: Bracewell & Giuliani 1445 Ross Ave. Suite 3800 Dallas, TX 75202-2711 (214) 468-3800

Marice, thank you for your email. We have decided to NOT do the video conference at the offices of Bracewell and Giuliani on November 30 but only do a meeting in Dallas at the Regional Office and do a conference call into the Dallas meeting. The call in number will be 866-299-3188 and the conference pin will be 2146652197.

11/21/2011 11:41 AM

Feel free to hand deliver the TPC's response to the 104(e) Information Request on November 30, however I will be unavailable to meeting during that day. If you would like to plan on meeting another time during the next few weeks, please send an email with the date you would like to meet and I will be happy to schedule a meeting.

USOR: TPC Group Participation in November 30 Meeting

Dear Ms. Brown,

In accordance with the Opportunity to Meet section of the US Oil Recovery (USOR) General Notice Letter to TPC Group (formerly called Texas Petrochemicals), this email is to advise you that TPC plans to attend the November 30 Opportunity to Meet at 1:00 p.m. at the EPA Regional Office in Dallas. I will attend the meeting in Dallas in person, and Michael Smith, representing TPC, plans to attend the meeting by videoconference at the law offices of Bracewell & Giuliani in Houston.

In addition, I am requesting a 30 minute meeting with you at your office on November 30, immediately after the 1:00 meeting. The purpose of this meeting will be to hand-deliver TPC's response to EPA's 104(e) information request and to discuss several issues specific to TPC's involvement in the USOR case.

Please respond by return email regarding both your availability for a 30-minute individual company meeting on November 30 and confirmation of the videoconference at the Bracewell office, which was described as tentative in the letter.

Respectfully, Marise Textor

US Oil Recovery Case and Texas Petrochemicals (now called TPC Group)

Dear Ms. Brown,

I am writing to you regarding the General Notice Letter and Opportunity to Meet sent to Michael McDonald, Texas Petrochemicals, regarding U.S. Oil Recovery in Pasadena, TX.

First, please update the contact person for Texas Petrochemicals for this case. Instead of Michael McDonald, President and CEO, please change the contact person to me, Marise Textor, Corporate Director – Regulatory Affairs. My address and other contact information is at the end of this email in the signature block.

Second, we changed our Company name from Texas Petrochemicals to TPC Group in early 2010.

Third, does EPA have an internet file available on the US Oil Recovery site? If yes, please send me the location of the file, an internet link or information on how to browse to the site. I have been unable to locate the file through my searches.

Four, what information can EPA provide to me regarding the volume of waste that other parties have sent to the US Oil Recovery site? Or, where I can I obtain that information?

Finally, we are working on our response to EPA's General Notice Letter. We received the letter on November 2, 2011, resulting in a due date for our response of December 2, 2011.

Respectfully, Marise Textor
